Here are some tips for submitting your article:

- Type your article in Microsoft Word or comparable program. Note: when you are submitting your finished article to the editor, please do so as an attachment.
 - Do not imbed photos, fonts or formatting. This may result in your article being returned to you with a request to redraft it.
 - Send all pictures as a jpg. It is especially helpful if you submit your pictures as an attachment to the same email as your article. Thank you in advance!
 - We are unable to use articles that are advertorial in nature. If you have questions regarding this, please email the editor.
 - When writing your articles, please keep in mind your readership. Who are hoping will read your article. What will they learn from reading your article?
 - Please submit your articles prior to the deadline whenever possible. If you require an extension, please let the editor know your article will be coming, its content and approximately how long you expect it to be when completed. This will allow us to save a space in the paper for you.
 - If you have any questions or concerns, please do not hesitate to email the editor at editor@terwillegar.org.
