

Operational Guidelines

The vision of the Terwillegar Community Garden Program is:

To tend to an enduring and evolving, environmentally conscious and sustainable community garden; endeavoring to cultivate comradery and extend enriching and educational experiences to everyone.

Our mission is to:

- ✓ Provide members with the opportunity to grow “organically”, i.e. without the use of herbicides or pesticides, vegetables and flowers in a suitable environment at relatively low cost.
- ✓ Build a sense of community and be inclusive of all potential gardeners in the community
- ✓ Promote sustainable gardening practices such as organic gardening and on-site composting
- ✓ Share produce with community organizations
- ✓ Provide a place of beauty for others to enjoy
- ✓ Provide environmental education and outreach opportunities for Terwillegar and surrounding communities organizations, schools, businesses and individuals

1. Background

The idea for the Terwillegar Community Garden Program started in 2006 with an attempt to locate a suitable site by a small group of interested and dedicated people. The program progressed when a community league survey performed in 2007 showed a high level of interest from the community.

In 2009 a suitable site for the garden was found on the Terwillegar Community League lands on Terwillegar Way. At this time, due to lack of city development on the site, only a temporary garden set-up with minimal structural investment is possible. Future permanent development will be pursued following the city’s development of the site.

2. Organizational Structure

The Terwillegar Community Garden Program is run in conjunction with the Terwillegar Community League. The garden program is administered by a Garden Committee which is a group of volunteers committed on an annual basis to meeting the responsibilities required to maintain the functionality of the program.

The Garden Committee holds meetings to discuss and resolve any issues pertaining to the garden. The Garden Committee members can be appointed or elected at the Annual Meeting held each spring.

The Garden Committee will consist of, but not be limited to, the following roles:

- Garden Coordinator
- Resource Coordinator
- Community Relations Coordinator
